

Price list of the controller for the filtration system

The prices are in american currency

| | |
|------------------------------------|---------|
| The micro controller and the board | \$15USD |
|------------------------------------|---------|

If you prefer not to order the components yourself, here's the price for them.

| | |
|---|---------|
| The minimal required components to control the controller | \$30USD |
|---|---------|

But you still have one choice to make: control it with a RF remote, by Bluetooth or both. Here are the prices for these options.

| | |
|--|---------|
| Components required for the RF control | \$18USD |
|--|---------|

| | |
|-------------------------------------|---------|
| Components for the Bluetooth module | \$13USD |
|-------------------------------------|---------|

| | |
|----------------------------------|---------|
| Second Bluetooth module (master) | \$14USD |
|----------------------------------|---------|

| | |
|-----------------------|--------|
| If you want some LEDs | \$2USD |
|-----------------------|--------|

| | |
|--|--------|
| Components required for the clock module | \$6USD |
|--|--------|

| | |
|------------------------|---------|
| To add the dust sensor | \$20USD |
|------------------------|---------|

| | |
|---|--------|
| The fan to move the air near the sensor | \$7USD |
|---|--------|

| | |
|--|---------|
| If you want me to assemble and test it | \$25USD |
|--|---------|

Shipping

Here are the different prices for shipping with Canada Post depending on where you live.

In Canada

| | |
|---|---------|
| All the components including the power supply | \$15USD |
|---|---------|

Same price without the power supply

| | |
|--|--------|
| Only the board and the microcontroller | \$2USD |
|--|--------|

In United States

| | |
|---|---------|
| All the components including the power supply | \$15USD |
|---|---------|

| | |
|---|---------|
| All the components without the power supply | \$10USD |
|---|---------|

| | |
|--|-----------|
| Only the board and the microcontroller | \$6.50USD |
|--|-----------|

In Europe

| | |
|---|---------|
| All the components without the power supply | \$10USD |
|---|---------|

| | |
|--|---------|
| Only the board and the microcontroller | \$10USD |
|--|---------|
